

QUALITY PRODUCTS

COOPER FLUID SYSTEMS OFFERS AN EXTENSIVE RANGE OF QUALITY PRODUCTS AND SYSTEMS FOR HYDRAULIC, LUBRICATION AND FLUID HANDLING APPLICATIONS

Lubrication Panel

The Lubrication Panel designed, manufactured, supplied and installed by Cooper Fluid Systems, Mackay Branch, has been primarily designed for Shovels and Draglines. The Panel is a simple design combining Hydraulic, Pneumatic and Electrical systems into one basic panel. It has the ability to control the flow of three separate lubricating fluids to the respective sections within a Dragline's moving components. Each different section of the Lube Panel has been colour-coded for easy identification.

Features and Benefits Include:

- Centralised control panel.
- Minimises pipe work.
- Easy access.
- Allows troubleshooting and maintenance from one location.
- Saves space.
- Improves overall efficiency.
- Allows safe and easy isolation.
