

The performance of a powered pump.  
The portability of a hand pump.

## XC-SERIES CORDLESS PUMP

Trigger lock-off

Integrated carrying handle

Ergonomic design

Impact-resistant composite housing

28 volt Li-ion battery

1-or 2-liter oil reservoir

### Performance

- High speed**
- Up to 2X faster than air powered pumps
- Long run time**
- 279 cuts of 9,5 mm reinforcing bar using the WHC750 cutter
  - 112 lifts with the WR5 spreader
  - 44 splits on 25,4 mm grade 8 nuts using the NC3241 nut splitter
  - 26 lifts of an RC104 cylinder

- Rugged design**
- Impact resistant composite material, built to perform in the toughest work environments

- Safety**
- Eliminates trip hazards from electrical cords and air hoses

- Versatility**
- Compatible with over 140 tools and cylinders

### Portability

- Lightweight**
- Weighs less than most common hand pumps
- Use in any position**
- Sealed, vent free reservoir
- Easy transport**
- Removable shoulder strap and integrated carrying handle

### Specifications

Max pressure	700 bar
Flow rate	2,05 l/min at no load 0,25 l/min at full load
Oil capacity	1 liter 2 liter
Weight w/battery	1 liter = 9,9 kg 2 liter = 10,6 kg

Model number	Description
XC1201MB	1 liter cordless pump kit: 2 batteries, 115V charger
XC1201ME	1 liter cordless pump kit: 2 batteries, 230V charger
XC1201M*	1 liter cordless pump
XC1202MB	2 liter cordless pump kit: 2 batteries, 115V charger
XC1202ME	2 liter cordless pump kit: 2 batteries, 230V charger
XC1202M*	2 liter cordless pump

\*Batteries and charger not included.

Take it to your toughest jobs.

- Mining
- Rail
- Energy (wind, transmission, power plants)
- Manufacturing (paper mills, foundries)
- Construction equipment
- General industry (MRO)
