

15DX

RAD are pleased to announce yet another World First in controlled bolting with the launch of our New 15DX ultra compact pneumatic torque tool.

The 15DX is the smallest 2000Nm (1500ft.lb) non impacting torque tool on the market today, weighing in at an incredible 3.9Kg.

Designed for extreme use in all environments the DX Series takes controlled bolting to a new level.

- The ultimate in power to weight ratio
- 400 - 2000Nm (300 - 1500ft.lbs)
- 3.9kg
- Continuous rotating - no impacting torque tool
- Individually calibrated with NATA Traceable Certification.

Part No.	Description	Range Ft.lbs	Range Nm	SQ. Drive	Speed Rpm	Weight Kg
17328	TOOL KIT DIGITAL RAD 15DX	300-1500	400-2000	1"	10.4	3.9

Like all other RAD Pneumatic Series tools the 15DX is supplied complete with reaction arm, tool holder, Filter/regulator/lubricator, 3M hose, waterproof site box and Instruction Manual as standard.
