

Electronic Series

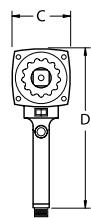

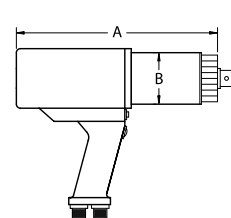

The E-RAD Series of tools are the World's most advanced electronic pistol grip torque wrenches. Designed to provide a high degree of accuracy and repeatability using our legendary gearbox design and the precision of an electronic servo motor.

All E-RAD tools are now supplied with 'Torque Only' and 'Torque and Angle' capability as standard making them ideal for all controlled bolting and Torque/Turn applications. With an accuracy of +/- 3% and torque values up to 6000ft.lbs (8100Nm) the E-RAD is the perfect solution in areas where compressed air is not available or an option.

Fan Kit as standard

Part Number	Tool Model	Square Drive	Torque		Weight Kg	Noise Level Db	Dimensions (mm)
