

COOPER'S BUILT SERVICE TRUCKS

DESIGN • SALES • INSTALLATION • SERVICE • REPAIR

COOPER FLUID SYSTEMS OFFER A COMPLETE SERVICE TRUCK DESIGN AND MANUFACTURE PACKAGE

Combine this with the after sales service and support provided through our national branch network, Cooper Fluid Systems are ideally situated to service the most demanding requirements of the mining, construction and earthmoving industries.

We work closely with our customers to identify requirements, assisting with product specifications and providing technical support through all stages of the design process.

Risk assessment is conducted on all designs ensuring the integrity and quality of product.

Customised designed service truck modules are available for all fuel, lubrication and water dispensing applications, with the ability to fit most makes of prime movers.
