

# Harvest more profits with Graco automatic lubrication equipment

There are things you can't control, like the weather, but there are things you can, like proper lubrication maintenance. Graco automatic lubrication systems help safeguard against breakdowns by lubricating your equipment while it's working. Get Graco automatic lubrication for machines that are ready when you need them most.

# Agricultural Equipment

## Real Solutions for Real People

Reliability When You Need it Most

# Agricultural Equipment

## High quality lubrication solutions

### For longer-lasting, better performing equipment

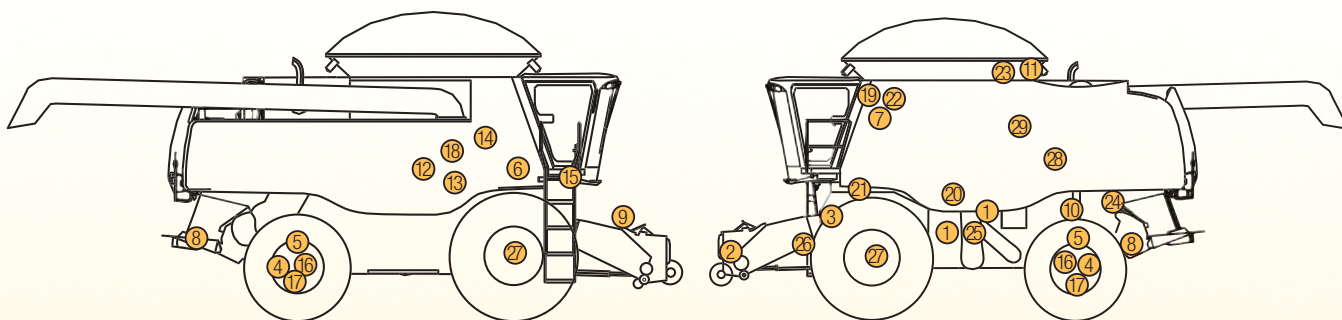

Proper lubrication increases chassis component life and reduces downtime. Graco provides lubrication solutions for all types of agricultural equipment to protect critical wear surfaces, maintain grease seals and prevent contaminants from entering your bearings.

## Higher yields for your bank account

Automatically lubricate all these points while you work, whether it needs it everyday, week or month. It's easy to stay on your maintenance schedule with Graco automatic lubrication equipment systems!

## Make hay

### Finish faster with less maintenance

Proper lubrication of your agricultural machinery requires that you know proper maintenance intervals and location of each lube point. With manual lubrication, difficult to reach lube points get missed while easy-to-find points get over lubricated.

With a Graco automatic lube system, maintenance is easy. A central pump and grease reservoir is located at a convenient, accessible location. The pump replenishes grease in small metered amounts as it's used and ensures every bearing is lubricated when it needs it most—while it's in use. Protect your investment by keeping more money in your pocket and contaminants out of your bearings.

*Have time for the other things you love.*

We know how important regular lubrication maintenance is for longevity and operation of farm equipment. At Graco we work hard to help farmers to be as successful as possible. We realize that Graco customers need high quality solutions that are easy to use, full featured and save time and money.

## Field-proven lubrication equipment

### No matter what you drive, Graco's got you covered

Combines, harvesters, sprayers and more!

# High quality lubrication solutions

Graco offers a complete line of money-saving lubrication systems for all types of equipment.

## Agricultural Equipment

Bottling Operations  
Beverage Production  
Cement Production  
Construction Vehicles  
Food Processing  
Forestry & Lumber  
Gas Compression  
Injection Molding  
Machine Tools  
Material Handling  
Military Vehicles  
Mining Equipment  
Off-Road Vehicles  
On-Road Vehicles  
Packaging  
Power Generation  
Primary Metals Manufacturing  
Printing Press  
Pulp & Paper  
Stamping Presses

And more...
